District Enters Stage III Of the Drought Contingency Plan

As a result of the severe drought conditions, the Centerville Community Services District has declared a **Water Shortage Emergency** and has entered into **Stage III** of the **District's Drought Contingency Plan**. This stage calls for an immediate 50% reduction in water use consistent with the drought plan.

As of March 4, 2022, the District has a total of only **1,050 acre-feet (AF)** of water available for use during the entire 2022 Water Year, which goes from March 2022 through February 2023. This includes the 150 AF purchased from the McConnell Foundation. In comparison to the previous Water Year ending February 2022, the District used a total of 1,860 AF. Considering the significant drop in water supply it is critical that our customers increase conservation immediately. At this time, there is no other known water supplies available for purchase. This means that immediate conservation is required so that the District can stay within the available water.

In the coming days you will be receiving more detailed information regarding Stage III and what it means to you. It will include a personalized water budget specific to your service address as well as provide other useful information regarding the Drought Contingency Plan Stage III and how to read your meter.

Please see the back of this newsletter for the District's Water Budget for the 2022 Water Year. This table will show you how much water is used (or projected) for the month and whether or not we have stayed within our budget.

OUTDOOR IRRIGATION RESTRICTIONS

Outdoor use of potable water – **All customers must reduce outdoor use of potable water by adhering to the following restrictions:**

1. Outdoor irrigation is permitted **only** between the hours of 12:00 a.m. and 9:00 a.m. and 6:00 pm to 12:00 am on the days described below:
 - a. Addresses ending with an **odd** number may water only on Wednesday, Friday and Sunday and only within the permitted time period.
 - b. Addresses ending with an **even** number may water only on Tuesday, Thursday and Saturday and only within the permitted time period.
 - c. For repair purposes only, outdoor irrigation systems can be operated between the hours of 6:00 a.m. and 9:00 p.m. for a reasonable period of time not to exceed five (5) minutes per zone cycle and only long enough to verify proper operation and make sprinkler adjustments.

Centerville's Water Budget

2022 Water Year

Below is our District-wide projected water budget for the 2022 Water Year ending February 2023. As you can see from the table, our usage is trending higher than what was budgeted for March. In order to stay within our 1,050 AF water supply, we must begin conservation today! This overage in March will impact what's available for the remainder of this water year.

	Mar	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Total
Budget	50	80	95	115	140	140	135	95	50	50	50	50	1,050
Projected / Actual	80												
Difference	(30)												

WATER STORAGE

AS OF MARCH 28, 2022

Reservoir Name	StaID	Capacity (AF)	Storage (AF)	% of Capacity	Average Storage	Out-flow (CFS)	In-flow (CFS)	Storage-Year Ago This Date
----------------	-------	---------------	--------------	---------------	-----------------	----------------	---------------	----------------------------

TRINITY RIVER

TRINITY LAKE	CLE	2,447,650	806,440	33	1,780,739	648	1,292	1,287,902
WHISKEYTOWN	WHI	241,100	207,957	86	212,693	275	480	206,831
LEWISTON	LEW	14,660	13,882	95	13,944	705	704	14,061

SACRAMENTO RIVER

SHASTA	SHA	4,552,000	1,727,971	38	3,560,676	2,524	3,666	2,382,975
KESWICK	KES	23,772	19,372	81	21,115	3,259	2,742	20,399

SCHEDULED BOARD MEETINGS:

The next scheduled Board of Director's Meeting will be held Wednesday, **April 20th at 7:00 pm**. See agenda for details and Zoom login information.

The public is always welcome.

Average Water Usage for the month:

Compare the usage on your water bill with the average of the District.

March's Average: 2,900 cubic - feet.
