Happy New Year!

Carr Fire District Recovery Update

It is the mission of the Centerville Community Services District to provide its customers a reliable, adequate supply of high quality water, at the lowest reasonable price, in an environmentally responsible manner. As a direct result of the damage caused by the Carr Fire, District staff has been diligently working to ensure that a safe and reliable water supply will continue to be available for all of its customers throughout the ongoing rainy season. As part of our continued commitment to you, we are closely monitoring the water quality of Whiskeytown Lake to ensure that the best quality water continues to be delivered to you. As part of this on-going effort, contingency plans are also in place to utilize our existing water supply intertie connections should the need arise.

As the winter season continues, additional information will be provided in this newsletter as well the www.centervillecsd.org website.

Coat Drive Report

Thanks to all of you that donated your gently used coats. They were dropped off at the Good News Rescue Mission on Thursday, December 20th. Your generosity was an inspiration and the coats were very much appreciated and will be put to good use. There will be many people keeping warm this winter thanks to you!

Keep in mind, this is an annual event and next year when the holidays roll around, you may donate more than coats. Gloves, hats, scarves and socks are also needed by those that may be having a hard time affording basic necessities. Your kindness and thoughtfulness may make a huge difference in someone's life.

How to Dispose of Your Christmas Tree

Waste Management will be picking up Christmas Trees in January. Please visit their website www.wm.com for additional information regarding dates of pick up and instructions for disposal. Make sure to remove all stands, lights, decorations and tinsel before placing your tree curbside. Don't worry if you miss the collection period, you can always cut-up the tree and place it in your green (yard waste) container for pick-up on your regularly scheduled service day where available.

Avoid Frozen Pipes

If you haven't already done so.... It's that time of year to wrap all of your exposed water lines with insulation or heating tape (including hose bibs, pressure regulators, etc.). We also encourage you to locate your water meter and determine whether or not you have an individual shut off valve (gate valve) just behind your meter box. This could save valuable time and damage to your personal property should your pipes freeze and break.

Board of Directors Annual Reorganization Session

The Board of Directors voted in a new slate of officers for the 2019 calendar year. Starting January 1, 2019 Director Larry Whitehead will serve as President of the Board and Director Walt Richison will serve as the Vice President. President Whitehead will announce the 2019 Standing Committees at the January 2019 Board Meeting.

Holiday Schedule

The District Office will be closed:

January 1st - New Year's Day

And

January 21st - Martin Luther King Jr.

Average Water Usage

for the month:

Compare the usage on your water bill with the average of the District.

December's Average: 1600 cubic - feet
