Tank Coating Program - Tank A1

Centerville is in its fourth year of a 10-year Tank Coating Program with Superior Tank Solutions. The services include a complete recoating of the tanks, safety improvements and the complete maintenance of all water tanks including full washout cleaning and inspections.

Based upon the schedule, Tank A1 will receive OSHA improvements and coating improvements in April 2025. In preparation for this effort, site improvements will be completed by Zeis Construction at the Tank A1 site to permit temporary water supplies for this zone. These services include building a pad for the five District-owned temporary tanks, delivering and installing the tanks, constructing the manifold piping to the tanks, and constructing a new fire hydrant. The contractor will provide all labor necessary with Centerville providing all required materials.

District Receive's 100% Allocation for 2025/2026 Water Year!

The Bureau of Reclamation announced the 2025 water supply allocations. Water supply allocations are based on an estimate of water available for delivery and reflect current reservoir storage, precipitation and snowpack.

Recent atmospheric rivers and the good condition of most of our reservoirs going into this water year benefited the water supply outlook.

With the District receiving 100% of their allocation, this water year will be used in the Bureau's calculations when determining how much water Centerville CSD will receive in a future drought. Drought allocations are based upon a three-year water use average when there is no drought present.

This is another excellent year to plant a garden!

STOP for the School Bus, It's the law!

With the District Office residing on Placer Road, we have received numerous calls about vehicles not stopping for the school bus.

It is important to know that California Vehicle Code section 22454(a) requires drivers to stop for any school bus that stops and displays a flashing red light signal and stop signal arm. To be clear, you must stop if you drive in the opposite direction or the same direction of a school bus that comes to a flashing stop on a two-lane, undivided road.

If you witness a driver not stopping for a school bus which clearly has the STOP sign out and the lights flashing, get their license plate number and turn them in by calling 1-800-TELL-CHP. We all must do our part to keep our kids safe.

St. Patrick's Day is March 17th Are you ready to celebrate?

There's no need to be Irish to get in on the fun. Here are some fun-filled St. Patrick's Day traditions to best celebrate this year.

Eat an Irish Potato: This unique Philadelphia-born St. Patrick's Day tradition isn't a potato at all - it's a candy! The sweet coconut truffle is covered in cinnamon to resemble dirt from the ground. For fun, see if they have a free sample at See's at the mall.

Bake Festive Desserts: Whether it's shamrock-shaped cookies or green cupcakes, satisfy your sweet tooth this St. Patty's Day with a selection of sweet, festive treats.

Drink a Green Beer: Raise a pint of your favorite Irish brew or get in the spirit with a green beer. And if you don't drink, have a green 7-up.

Eat Corned Beef and Cabbage: You haven't celebrated like the Irish if you don't devour a plate of corned beef and cabbage with red potatoes. It is hearty, inexpensive and delicious.

Watch Darby O'Gill and the Little People: This is a FAVORITE of mine! I believe you can find it on Disney.

Wear GREEN: Since I was a wee lad, I have been afraid of being pinched if I didn't wear green on St. Patty's Day.

Listen to Irish Music: The Lakeshore Inn at Lakehead will have live music. You'll feel like you're right at Dublin's Temple Bar.

The Centerville Education Foundation would like to thank all of those who came out to support their annual fundraiser. They raised a total of \$34,000 that will benefit the students at Grant School. Thank you CEF for all you do for our students!

Average Water Usage for the month:

*Compare the usage on your water bill
with the average of the District.*

February's Average: 1,300 cf.

SCHEDULED BOARD MEETINGS:

The next scheduled Board of Director's Meeting will be held **Wednesday, March 19, 2025 at 7:00 pm.**

The public is always welcome.
