## The Value of Maintenance

### Reservoir Tanks

The average useful life of a Water Tank is approximately 75 years if properly maintained, and can be considerably longer if properly managed. Just like an old classic at Cool April Nights, these beauties can have a long life.

The District has a total of five water tanks all with varying degrees of needed maintenance including coating replacement, as well as, safety improvements required by OSHA.

At present, the District is reviewing options for its Tank Coating Maintenance Program. The purpose of this program is to manage and maintain the coating systems and ensure a safe and reliable water system.

### Hydrant Maintenance & Flushing

You may have noticed our Field Operators actively working on the Fire Hydrant Maintenance & Flushing Program. This is an important part of ensuring proper function of these vital facilities when they are needed for fire protection and other related emergencies. The conventional flushing also helps maintain the highest quality of water being provided to you.

### Valve Turning Program

The District's Water Distribution System is an essential investment in the community's infrastructure. Consisting of pipes, valves and hydrants, each plays an important role in ensuring water service and quality.

The ability to locate and operate valves in an emergency is imperative to the safety of the community. The District's Valve Maintenance Program is an essential proactive program to identify and prevent deficiencies in our water distribution system.

**Please be aware of our operators while driving.**

*The mission of the Centerville Community Services District is to provide a reliable adequate supply of high quality water, at the lowest reasonable price, in an environmentally responsible manner.*

# October 1st through November 30th

Although our afternoons may still be warm, winter will be here soon enough.

Once again, we ask you to join us in helping others stay warm this winter. We will be accepting new/used, child/adult coats,

mittens, scarves and beanies. Donations can be dropped off at the District Office Monday through Friday from 8 am to noon and 1 pm to 5 pm from October 1st thru November 30th We will deliver these items to the Good News Rescue Mission. Thank you for helping us spread the warmth!

## ANNOUNCEMENT

### Director Willis Announced Her Resignation

We would like to thank Director Willis for her service to the community and wish her great happiness as her and her husband move to a new location. We hope you enjoy your new home and know that you will be greatly missed.

### BOARD MEMBER VACANCY

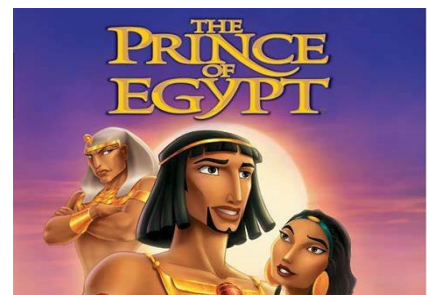

The Board of Directors will be accepting applications for the vacant Board of Director position until Friday, October 30th at 5 p.m. Anyone interested in serving on the Board is requested to submit a letter of interest to the District Office, located at 8930 Placer Road.

Following the close of the application period, the Board will set a meeting date to interview each applicant. After this process, the Board will announce it's selection. The new Director will serve on the Board until the next election cycle, which will occur in November of 2022.

California Government Code Section 61040(b) states in part, "No Person shall be a candidate for the Board of Directors unless he or she is a voter of the District". Should you have any questions please contact the District Office at 246-0680.

October 24th AT 7:00 pm

Don't miss all the fun at Westside Church's Drive-In Movie Night, Featuring The Prince of Egypt. They will have popcorn and candy; and parking spots will be marked for social distancing.

### Average Water Usage

Compare the usage on your water bill with the average of the District.

September's Average: 7,800 cubic - feet.

### SCHEDULED BOARD MEETINGS:

The next scheduled Board of Director's Meeting will be held Wednesday, October 21st at 7:00 pm, at the District Office.

*The public is always welcome.*
