Imagine a Day Without Water and the Businesses That Rely on It

October 16th is Imagine a Day Without Water and this year's theme is a timely one: "Imagine a Day Without Water and the Businesses That Rely on It."

From restaurants and hospitals to manufacturing and tech, every local business depends on reliable water.

Essential. Invaluable. Water, it's the thread that weaves together our daily lives. It keeps our communities healthy, our cities running, and our economies growing.

While essential, water infrastructure is largely invisible, few people realize what it takes to treat and deliver drinking water. The high quality of life we enjoy in America would not be possible without water and the infrastructure that supplies it.

Help us celebrate the resource that connects every part of our lives, by visiting www.thevalueofwater.org to learn more about this precious resource that we all need to survive.

Where Does our Water Come From?

Did you know that the water in Whiskeytown comes from Trinity?

Headwaters of the Trinity River originate deep within the remote and rugged Trinity Alps. The Trinity Alps watershed generates an average annual water runoff of about 1,250,000 acre-feet.

Trinity Lake feeds into Lewiston Lake through the Trinity Dam which regulates flows on the Trinity River. Trinity Lake has a storage capacity of 2,448,000 acre-feet, which is half the size of Shasta Lake.

Lewiston Lake which holds 14,660 acre-feet flows water down the Trinity River through the Lewiston Dam and diverts water to Whiskeytown Lake by means of the Clear Creek Tunnel. The Clear Creek Tunnel is 17.5 feet in diameter and 10.7 miles long.

Whiskeytown Lake holds 241,100 acre-feet of water. Each year the District uses approximately 1,500 to 1,900 acre-feet from Whiskeytown Lake.

The Bureau of Reclamation manages the water in each of the reservoirs to allow for fisheries, recreation, power, consumption, protecting ecosystems and flood control.

IT'S TIME FOR OUR ANNUAL
WINTER COAT DRIVE!

October 1st through December 31st

Although our afternoons are still warm, winter is soon approaching.

It's time for the annual coat drive. We may not be able to clothe the world, but we can help the homeless and less fortunate stay warm during the winter.

Each week we will be accepting new socks and new/used child/adult coats, mittens and beanies then delivering them to the Good News Rescue Mission. Donations can be dropped off at the District Office Monday through Friday from 8 am to noon and 1 pm to 4 pm from October 1st thru December 31st.

Thank you for helping us spread the warmth!

2025 PTO
