## Server Replacement Project

The Server Replacement Project was budgeted in the FY 23/24 Capital Budget. The current server dates back to 2012 and is approaching the end of its useful service life. Over the past few months, the server has been showing signs of its age which required additional computer support.

The Board of Directors unanimously awarded the District's Server Replacement Project to Computer Logistics of Redding. Continuing to upgrade and manage all District facilities ensures resiliency which enables the District to continually offer the best reliable water and customer service possible.

## District Solicits Bids for the Telemetry Replacement Project

The Board of Directors voted to solicit bids for the Telemetry Replacement Project. This project will remove and replace the radios, antennas, surge protective devices and cabling at seven sites located throughout the District's service area.

At present, a large portion of the Telemetry System is over 20 years old. This system provides the critical communication network necessary to provide vital field information to the SCADA system so that the operators can monitor and remotely operate the distribution system. Having an estimated useful life of 15 – 20 years it is necessary to replace this equipment to ensure a seamless and resilient operation. The plans and specifications for the new telemetry were completed by PACE Engineering. Bid opening is scheduled for October 27, 2023.

## Avoid Late Notices and Fees

The District offers many payment options to enable everyone to avoid late notices and fees. Your water invoice can be paid online through the District's website: [www.centervillecsd.org](http://www.centervillecsd.org), or you can call in a payment over the phone, place your payment in the District's drop box in the parking lot, or mail a payment to the District Office. We also offer ACH payments that are automatic and free. If you'd like to know more about ACH payments, please contact the District office.

# Harvest Festival

## at Grant School

For over 30 years Grant School has been enchanting our local youth by providing fun and exciting games for the entire family. They bring the community together creating memories that will long be shared.

This year's Harvest Festival will be held on **October 20th from 5:30 pm to 7:30 pm**. Festivities will include the amazing Haunted House, Face Painting, Cake Walk, Games, Cotton Candy and so much more!!

**Please join us and Don't forget to bring your Halloween bag!**

## Is Your Furnace Ready for Winter?

Cleaning your furnace is important for several reasons. A clean furnace will burn less fuel, saving you money and extending the life of the unit. It also helps maintain optimal performance and efficiency. Regular cleaning can prevent the buildup of dirt and debris on the burners and heat exchanger, which can reduce the furnace's ability to properly heat your home. Additionally, a clean furnace ensures that the air circulating through your home is free from dust, dander, or mold spores. While replacing the filter is a task anyone can do, a full cleaning of the furnace is best left to professionals. It is generally recommended to have your furnace professionally cleaned once a year.

### SCHEDULED BOARD MEETINGS:

The next scheduled Board of Director's Meeting will be held **Wednesday, October 18, 2023 at 7:00 pm.**

The public is always welcome.
